WALTHAM EIGHT-DAY TIMEPIECES

The Latest Example of the Watch Manufacturers' Skill, and the Result of the Waltham Watch Company's Constant Aim for "Something Better"

We take considerable pride in presenting the Waltham 8-Day Timepiece, in every way fully up to the high standard that has made the name "Waltham" on a watch, the sign of quality and reliability all over the world.

Waltham 8-Day Movements are *adjusted to temperature,* an innovation in an 8-day timepiece. They have two extra long mainsprings, are equipped with safety steel barrel, have 15 jewels, Breguet hairspring, patent winding indicator. They combine with usefulness, beauty in design and proportion.

We invite the public to a careful examination of these fine timepieces, and a comparison with imported movements of a similar character.

The Waltham Watch Company has been making high grade watch movements for over half a century, and is to-day the largest producer of high grade watches in the world.
On the following pages we show our 8-day models: the Box Chronometer for watchmakers and yachtsmen; watches for automobiles and motor boats, where they are subject to constant jars and exposed to all sorts of weather conditions; for limousines, where they become a part of the expensive furnishings that the modern automobile demands; for the desk and pocket timepieces, where convenience, accessibility, noiselessness and accuracy are the essential requirements.

FOR AUTOMOBILES OR MOTOR BOATS

Model S—ACTUAL SIZE

It is the only timepiece made for automobiles or motor boats having 15 jewels; and adjusted to temperature. The movement runs 10 days with one winding, the warning winding indicator signal giving notice that the movement should be wound three days in advance of its running down. It is an accurate and reliable timepiece, fully warranted.

Price, $25.00

FOR AUTOMOBILES OR MOTOR BOATS

WATERPROOF CASE—Model D
ACTUAL SIZE

Is both dust and weatherproof, the inner casing containing the movement is secured to the outer case in such a manner that the watch cannot readily be stolen; has 15 jewels; is adjusted to temperature; the movement runs 10 days with one winding, the warning winding indicator signal giving notice that the movement should be wound three days in advance of its running down.

Price, $25.00

WALTHAM

WALTHAM BOX CHRONOMETER (ACTUAL SIZE)

WALTHAM EIGHT-DAY TIMEPIECE

The New Waltham 8-Day Lever Escapement Chronometer, shown on the preceding page, is absolutely reliable, and is accurate to a degree not exceeded by the highest priced imported ship's chronometers.

Movements and cases are made to Waltham standards in every particular. The Waltham 8-Day Chronometer is a dependable instrument for navigators of large yachts, and an attractive accessory to motor boats.

DESCRIPTION OF THE MOVEMENT

15 Jewels in settings; adjusted to temperature and isochronism; carefully timed in its case before being shipped from the factory; compensating balance; balance pivot running on diamond; double roller escapement; sapphire jewel pin; 2 extra long mainsprings; the winding crown or pendant winds both mainsprings simultaneously; pendant set; patent regulator; winding indicator; indicator disc on dial showing red *as a signal that it is time to wind the Chronometer.* The movement is enclosed in a dust and weatherproof case with screw back and bezel. The box in which the Chronometer is suspended is of polished mahogany with brass trimmings, fully up to the highest class of marine Chronometers in every respect.

Price, $60.00

LIMOUSINE WATCH

TWO-THIRDS ACTUAL SIZE

15 jewels; adjusted to temperature. The movement runs 10 days with one winding. Has the Waltham Winding Indicator, the signal giving notice that the movement should be wound three days in advance of its running down. Is an accurate and reliable timepiece.

These watches become a part of the expensive furnishings demanded by the modern luxuriant motor car.

Price in Morocco Case,	$30.00

According to the quality of leather selected

TRAVELING OR DESK WATCH CLOSED

When the traveling or desk watch is closed, as shown above, it can easily be carried in the pocket or hand bag. For description and prices, see opposite page.

FACSIMILE OF GOLD MEDALS AWARDED WALTHAM WATCHES

The medals presented here are the result of competition in all the leading exhibitions, national and international, of the world. Waltham watches have in every instance secured gold medals and the First Prize. Waltham watches have also taken more "Class A" certificates at the famous Kew Observatory of England than watches of any other make. This success is the more noteworthy owing to the exacting conditions of this competition and to the fact that it is participated in by all the leading watchmakers of the world.

The reason for the excellence and reliability of Waltham Watches is in its great factory at Waltham, where there is mechanical equipment unsurpassed in the world, and an organization of mechanics and artisans who are the recognized authority in their respective lines. We solicit correspondence concerning our products. Inquiries will receive prompt and careful attention.
